**MINIMUM TANK RATINGS**

- Holds liquid weighing 12 lb/gal (1.44 kg/L) minimum
- Handles liquid temperatures up to 130°F (49°C)
- Storage temperature range in container of 45° - 75°F (7° - 24°C)
- Regulate temperature of the indoor storage of drums/bulk tanks or insulate and heat outdoor tanks
- Prevent indoor drum/tank exposure to cold flooring by elevating with pallets or insulation

**COMPATIBLE STORAGE/PLUMBING/PUMPING MATERIALS**

<table>
